OBJECTIVE

Aspiring Data Analyst passionate about extracting insights from data using Python, SQL, and visualization tools like Streamlit. I am currently pursuing a B.Tech in Computer Engineering, eager to apply my skills in a full-time data analytics role.

EDUCATION

B.Tech in Computer Engineering, Pimpri Chinchwad College of Engineering, Pune (SPPU)

Expected 2025

Relevant Coursework: Data Analysis, Python Programming, SQL, Statistics

HSC, Disha Public School Jr. College, Wai

2020

Percentage: 88.66% 2018

SSC, Mary Matha High School Jr. College, Mhaswad

Percentage: 93%

SKILLS

Technical Skills Python, SQL, Streamlit, Data Analysis, MS Power BI, MS Excel HTML, CSS, C, C++

Soft SkillsProblem-Solving, Communication, Team CollaborationCertificationsData Science with Python, SQL (Basic) by Hackerrank

EXPERIENCE

Intern (COE Program)

May 2024 - Aug 2024

Celebal Technologies, Pune

- Gained hands-on experience in Python programming fundamentals, EDA, and data visualization using Matplotlib and Seaborn.
- Learned the basics of Machine Learning (ML) and explored various ML algorithms.
- Worked on predictive modeling projects such as house price prediction, Olympic medal prediction, and Titanic survival prediction.

PROJECTS

Election Analysis 2024

Built a Streamlit app to analyze the 2024 Lok Sabha election results, providing comprehensive visualizations and insights. (Live Demo)

Snowflake Data for Good Hackathon Project

2024

Created a Streamlit app to showcase insights on women's health, social status, and issues such as violence and remarriage, using data analysis techniques. (Live Demo)

EXTRA-CURRICULAR ACTIVITIES

- Active in sports (volleyball, badminton).
- Enjoy writing diaries and reading poetry.
